

*Ministry in Asia is unlike ministry in other parts of the world. It's challenging geographically, culturally, linguistically, and especially spiritually.*

*Asia is culturally diverse with long, colorful histories and traditions that include exotic foods, dress and festivities.*

*More importantly, Asian culture is heavily influenced by religious practices, built into the fabric of everyday life by the false teachings of Islam, Buddhism, Taoism, Sikhism and others.*

*No other place on earth is more in need of missionaries willing to learn new languages and cultures to share the good news of the saving grace found only in the Lord Jesus Christ!*

## Why Should I Consider Asia?

There are still over 3,500 primary languages in the world that have no portion of the Bible translated into them. More than a third of these languages belong to people groups in Asia. Yet, God has not forgotten about one of these souls. He suffered, died and rose again for every man, woman, boy and girl.

Ask yourself where you factor in to the great commission? There are millions of people in Asia that have never heard the Gospel of the Lord Jesus Christ in any language, much less their heart language.

Imagine the impact the Lord would have if you allowed Him to use you to reach one of these people groups!

## Are Asian Countries Hard to Get Into?

Many Asian countries are closed to the Gospel and hostile toward Christians. Many others are not open, but do not seek to stop the spread of the Gospel. Often, missionaries in Asian countries need to apply for a work visa and provide a service in order to stay and share the Gospel. In many cases, missionaries live in an open country and work in the surrounding countries as the Lord opens doors.
